DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because it exceeds the 150-word limit and consists of multiple paragraphs instead of being a single paragraph.

Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

3. Claims 1-11 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art when taken separately or combined fails to teach or show a light unit having a light source with a light guide plate located at one side of the light source in which the light guide plate has a color dispersion sheet located at an opposite surface to the front surface of the light guide plate and a diffraction pattern is formed on at least one of the front surface and a rear surface of the light guide plate.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. HOSHI (6,020,944) shows a light guide plate with a diffraction grating.

6. This application is in condition for allowance except for the following formal matters:

The objections to the abstract as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
